Vince,

Great information and work. I forwarded your email to some Region 3 contacts (Vicky Binetti and Bill Arguto) who are responding to the West Virginia MCHM spill. Have you been pulled into any discussions with Region 3? I told them they could contact you or the NIST contact if they had more questions. Hope that is okay.

I look forward to reading the report.

Thanks,

Elizabeth

Hi Elizabeth,

An executable version of the model is available on NIST's web site. It's been a while since I took a look at it.

Ex. 5 - Deliberative

Mark Kedzierski of NIST (mark.kedzierski@nist.gov, 301-975-5282) was the main developer of this program. He can give you additional insight into the model.

Let me know if I can be of more help.

Vince

Hi Vince,

I ran across this (<http://fire.nist.gov/bfrlpubs/build08/PDF/b08025.pdf>) with you named as the PO. I was wondering what ever came of the model development on flushing.

Thanks,

Elizabeth
